

Company Profile

PASCO Paving Stones Company was founded in 1978 as a partnership company between 3 local businessmen and Dr-Ing. Armin J. Wuensch as Managing Partner.

The company produces concrete elements for roads and buildings. PASCO started its operations with one multi layer machine and has expanded since. Presently PASCO has got 12 main production lines and 4 secondary processing lines. PASCO produces paving stones, Kerbstones, Blocks, Planters, Modular blocks and other concrete elements. **PASCO has been certified with ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007.**

PASCO is located in Shoalb Al Gaf, Truck road, New Industrial Area. The company employees approximately 250 laborers and staffs. PASCO has a sales office in Abu Dhabi.

PASCO has its own huge showroom and show garden at the factory premises, where most of our products are displayed and laid. Customer can visit our showroom, show garden and select the products to suit their taste and requirement. Also customer can select their products from our website and send enquires.

PASCO has got its own sand washing plants to improve the quality of raw materials which is used in PASCO products (i.e., pavings, blocks, kerbstones and tiles) which in-turn improve the quality and durability of paving stones & other products.

PASCO develops and invents new type of paving and its designs year after year. PASCO has developed and introduced a new type of insulated blocks with high μ value. PASCO also produces planters, retaining wall elements, and modular blocks for landscaping.

Our Motto since 40 years is **RELIABLE, INVENTIVE and COMPETENT** for the benefits of our customers.
